A Laboratory Course in Experimental Physics (Paperback)

By W J Loudon, J C McLennan

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. ALTHOUGH text-books of practical physics are now fairly numerous, the demonstrators in physics of the University of Toronto appear to have found it impossible to adapt any of the existing ones to the requirements of their students. The same difficulty has been experienced in most English laboratories, partly on account of the diversity which exists between the apparatus of the various institutions, and partly because of the different aims of students working in them. Consequently nearly every laboratory possesses instruction-sheets, either in print or manuscript, which have in some instances been edited and issued in book form; the present volume is a case in point. The experiments described in the book are arranged in two courses, elementary and advanced, in the former of which weighing and measuring, light and heat, are included, while the advanced course consists of sound, advanced heat, electricity, and magnetism. Some easy experiments in electricity and magnetism might have been included in the elementary course, otherwise the selection is a fairly good and useful one. The section on sound contains figures and descriptions of Helmholtz...
