By American School

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: .tints and compound shades, that are not easily matched. Prepare the dye bath as follows: Direct Cotton Color Common Salt Soap Enter the material at a temperature of 100 F or lower, into the dye bath containing the dyestuff and soap, and after working -hour, add the proper quantity of common salt. Bring dye bath to a boil, and dye at a boil for one hour. Calcareous water should be corrected as in the second method before adding the soap. FOURTH METHOD. This method is the same as the third, except that sodium phosphate is used instead of common salt. General Notes. When especially deep shades are desired it often is advisable to boil for. -hour and then work in the gradually cooling bath for to 1 hour, for by doing this the dyestuff is utilized to its fullest extent. Some dyestuffs have been found to...

Reviews

It is an amazing ebook i have possibly study. Indeed, it is engage in, nevertheless an amazing and interesting literature. I am just very easily can get a pleasure of reading a published book.

-- **Christopher Ferry**

An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.
