The Elements of Style is a prescriptive American English writing style guide comprising eight elementary rules of usage, ten elementary principles of composition, a few matters of form, a list of forty-nine words and expressions commonly misused, and a list of fifty-seven words often misspelled. In 2011, Time magazine listed the writing style-guide as one of the 100 best and most influential books written in English since 1923. Cornell University professor of English William Strunk, Jr. , wrote The Elements of Style in 1918, and privately published it in 1919, for in-house use at the university. In The Elements of Style (1918), as a professor of English, William Strunk concentrated on specific questions of usage and the cultivation of good writing with the recommendation Make every word tell; hence, the 17th principle of composition is the simple instruction: Omit needless words.
