The class includes the whales, carnivores, rodents, bats, primates etc. Amidst the plenty of literature on the topic in one shape and other, this work is unique which encompasses complete encyclopaedic information on Mammals. "This text is designed to approach the morphology, anatomy, physiology and development of the Mammals in a coherent way. "Profusely illustrated, the book features both a text and a laboratory guide. It deals with the structures and physiological phenomena of each system. 934 pp.
