Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.You need to read this book to find out more about Stock Options? Some books provide a simple introduction to Stock Options. Some books provide a more detailed framework for how to use Stock Options. This book provides both! In this book you will find a collection of eighty consolidated learnings from an experienced derivative trader, with over twelve years of trading experience. You can use Stock Options as Insurance for your long term stock portfolio. You can use Stock Option Trading as a stand-alone business venture. Here s just some of the information that you will find inside this frank, informative compilation: An explanation of basic Call Options and Put Options in layman s terms. An introduction to using Stock Options as insurance for your stock portfolio. Discussions and explanation of candlesticks bar charts and the display of financial information. A breakdown on liquidity and market makers. The benefits of trend trading and optimizing your profits during price movements. The importance of Psychology in profitable trading. Criteria for choosing the best Mentors and the training that suits you. Your Trading should be an investment so this book covers: Money management and capital preservation tools. A realistic focus on the time commitments and the opportunity costs of trading.Emphasis on the importance of your own written trading rules. Recognition that trading is a business and help in defining your own trading business plan. An introduction to more advanced Options trading strategies plus the use of strategic action plans to reduce your reaction times.This is not a book about making millions of dollars, trading for only ten minutes a day.The Author frankly talks about his \$100k losses during his early trading career. Invest in...
