Oxford University Press Inc, United States, 2013. Paperback. Condition: New. 8th Revised edition. Language: English . Brand New Book. This eighth edition of A Dictionary of Genetics contains over 7,500 up-to-date and cross-referenced entries, including 540 that are newly written. The entries include the latest terminology, concepts, theories, and techniques, covering not only genetics but also such overlapping disciplines as cell biology, medicine, and evolutionary biology. The fully revised six appendices are a unique source of detailed supplementary information, including a chronology of scientific and technological breakthroughs spanning the period from 1590 to the present, lists of useful internet sites and journals, and a table of sample genome sizes and gene numbers. A Dictionary of Genetics continues to be the definitive reference work for students, educators, and clinicians in the field of genetics.
