## SPINE VIBRATIONS: HEALING MUSIC FOR THE SPINE, MUSCLES, ORGANS AND SUBTLE BODY

Kaminn Media Ltd, United Kingdom, 2017. CD-Audio. Condition: New. Language: English . Brand New. Everything vibrates. And everything in the body vibrates at its own special frequency. This is scientific fact. When we are thrown out of balance through physical, emotional or psychic shocks, our body and psyche can weaken or overload, creating distorted and unbalanced vibrations. The Chinese have known this for centuries, and the recognition of this is the basis for the traditional healing art of Acupuncture and Kinesiology. Through the pioneering work of auditory psychic Sharry Edwards, a very unique sound therapy system has developed. Low frequency sound waves are fed back to the body via the brain to re-mind the body what the original healthy frequency was. When the sound waves that you most need are played to you, they balance these peaks and troughs to bring the mind and body back to a harmonious state. In this state, healing can take place. -----

----- SPINE VIBRATIONS - THE 12 FREQUENCIES Thus also the unique vibrational 12 frequencies of the spine were established. It was discovered that the notes related colors along the spine remain the same for most people. The spine frequencies incorporate all the notes of Western music. If you could see them in color you would see a rainbow. These notes stretch over two and a half musical octaves, which, interestingly, is the average vocal range of a singer. Each part of the spine affects areas of the body and affects certain states of mind and emotion. The work of author Louise Hay also supports this, among others. For example, the neck and shoulders area ( C1 - C7) is associated with face, head, scalp, ears, pituitary gland, brain, eyes, sinuses, jaw, nose, mouth, eustachian tube, vocal cords, neck, throat, shoulders and elbows....
