5starcooks, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Who is the Software Architecture process owner? At what point will vulnerability assessments be performed once Software Architecture is put into production (e.g., ongoing Risk Management after implementation)? How will you measure your Software Architecture effectiveness? Is the Software Architecture scope manageable? How do we ensure that implementations of Software Architecture products are done in a way that ensures safety? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role. In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, What are we really trying to accomplish here? And is there a different way to look at it? For more than twenty years, The Art of Service s Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc. - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in Software Architecture assessment. All the tools you need to an in-depth Software Architecture Self-Assessment. Featuring 625 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which...
