Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Nature Study by Grades: A Textbook for Higher Grammar Grades This third book of the Nature Study Series is designed to meet the needs of pupils in the sixth, seventh, and eighth grades of elementary schools. While its general plan follows that of the earlier volumes, the subjects treated cover a wider range of observation and experience. In the adaptations of the lessons to meet the needs of the class and to fit the materials at hand to study, the teacher should exercise the same liberty as previously suggested. Many Of the lessons may be extended indefinitely by giving added directions, orally or upon the blackboard, for further experiments, Observations, or research. An effort is made in the eighth grade work especially to develop the uses and methods of classifying knowledge, - a thought that the teacher may with profit carry further than is provided for in the text.
