Packt Publishing. Paperback. Condition: New. This item is printed on demand. 382 pages. Over 100 recipes to help you enhance your SOA composite applications with Java and BPEL Overview Easy-to-understand recipes for integrating Java and BPEL Covers wide range of integration possibilities for orchestrating business processes Provides step-by-step instructions on examples stretching throughout the chapters, covering all phases of development from specification to testing In Detail The Business Process Execution Language (BPEL) has become the de-facto standard for orchestrating web services. BPEL and web services are both clamped into Service-oriented Architecture (SOA). Development of efficient SOA composites too often requires usage of other technologies or languages, like Java. This Cookbook explains through the use of examples how to efficiently integrate BPEL with custom Java functionality. If you need to use BPEL programming to develop web services in SOA development, this book is for you. BPEL and Java Cookbook will show you how to efficiently integrate custom Java functionality into BPEL processes. Based on practical examples, this book shows you the solutions to a number of issues developers come across when designing SOA composite applications. The integration between the two technologies is shown two-fold; the book focuses on the ways that Java utilizes the BPEL and vice-versa. With this book, you will take a journey through a number of recipes that solve particular problems with developing SOA composite applications. Each chapter works on a different set of recipes in a specific area. The recipes cover the whole lifecycle of developing SOA composites: from specification, through design, testing and deployment. BPEL and Java Cookbook starts off with recipes that cover initiation of BPEL from Java and vice-versa. It then moves on to logging and tracing facilities, validation and transformation of BPEL servers, embedding of third-party Java libraries into BPEL. It also covers...
