By Sandeep Chatterjee, James Webber

Pearson Education Limited, United Kingdom, 2003. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Build Web services with enterprise-class reliability, performance, and value. Web services are transforming IT, and represent a powerful new way to reduce cost and drive top-line growth throughout the enterprise. This book takes a no-nonsense view of architecting and constructing enterprise-class Web services and applications. The authors expertly assess the current state of the Web services platform, offering best practices and new architectural patterns for leveraging the advantages of Web services-and mitigating the risks. This work helps build Web services and applications that meet enterprise requirements for security, mobility, transactions, QoS, workflow, portlets, management, and more. It helps you avoid the bottomless pit of application rewriting and maintenance overhead, and architect applications to stay reliable even if some Web services go off-line. It features acale applications to support the inclusion of Web services from multiple partners, and secure private information within Web services environments. It helps you develop high-value mobile Web service applications, and includes a detailed case study. Whether you re an architect, developer, project leader, or manager, this book will help you deliver on the promise of Web...
