Brand New Book ***** Print on Demand *****.Excerpt from Steel Mine Timbers: Tables and Data on the Properties and Uses of Sections So long ago as 1894 it worked out a type of framing suitable for use in the bituminous coal fields of Western Pennsylvania. This effort bore fruit in the next ten years in sporadic installations chiefly in the anthracite region, but the real impetus to the systematic timbering of mines dates from 1907, when this Company placed on the market a series of steel sections designed with special reference to this work. The H-beam has made steel framing as simple as the wooden framing it displaced. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
